WORK EXPERIENCE

Technical Hub Pvt Ltd

June 2024 - Oct 2024

Full Stack trainee

- Implemented multiple HTML, CSS, and Javascript codes; took part in the ISHIP program, which allowed us to showcase our skills; worked on a resume builder project; and worked on multiple codes to obtain a thorough understanding of front-end development using HTML, CSS, and JavaScript.

Technical Hub Pvt Ltd

Aug 2023 - Dec 2023

Java trainee

- I spent a lot of time working on Java code and learning everything there was to know about object-oriented programming and the Java Collection Framework. This helped me tackle over a thousand problems on various programming platforms.

PROJECTS

Resume Builder

June 2024 - August 2024

With this fully complete front-end web application, the user fills out a form with the information that needs to be on their resume. After choosing a template, they click "Apply" to have their resume generated and downloaded.

Tech Stack: Html, CSS, Java Script.

Veda Website

August 2024 - September 2024

I collaborated with a team of 10 members to develop a website for our college event, VEDA. This project focused on creating a user-friendly platform where attendees can easily register for events, choose sessions, and manage their bookings. The website features a responsive design for optimal access across all devices, secure payment integration, automated email confirmations, and a customizable dashboard for event organizers to manage and monitor the event effectively.

Tech Stack: ReactJS, ExpressJS, MongoDB.
